## PROFESSIONAL EXPERIENCE

---

Front-End Developer specialized in **React.js & TypeScript**, with hands-on experience building responsive and scalable web applications. Strong knowledge of modern state management (Redux Toolkit, Context API), UI frameworks (Tailwind, MUI), and API integration. Fast learner with solid problem-solving skills and a passion for clean, maintainable code.

## EDUCATION

---

**Bachelor's Degree in Computer Science and Information**

09/2019 – 08/2023

Zagazig University

**Graduation Project:**

- Project Name: patients' health records using cloud technique
- This app helps patients keep track of their medical records and share them with different doctors in the same specialty. It also allows users to record their medications and access other useful features.
- Grade: Excellent

## COURSES

---

**React.js – Self-learned through official documentation and project-based tutorials**

**Frontend Mentor Projects – Practicing UI challenges to sharpen real-world design conversion skills**

**JavaScript Essentials – Covered core JavaScript fundamentals and DOM manipulation**

## SKILLS

---

### TECHNICAL SKILLS

**Front-End Technologies:**

- React.js (Hooks, Components, JSX)
- Redux , Context Api , TypeScript
- Tailwind CSS, Bootstrap, Material UI
- HTML5, CSS3, JavaScript (ES6) , TypeScript
- Framer Motion

**Tools & Platforms:**

- Git & GitHub
- Chrome DevTools
- VS Code

### SOFT SKILLS

- Fast learner with a strong drive to master new technologies
- Strong analytical and problem-solving abilities
- adaptability, self-learning

## PROJECTS

---

### E-Commerce Web Application

React • TypeScript • Redux Toolkit • JSON Server Auth • Netlify

- Built a fully functional e-commerce app with cart persistence, authentication, and product filtering.
- Implemented scalable state logic using Redux Toolkit & strongly-typed components via TypeScript.
- Simulated a backend using JSON Server Auth & deployed the project on Netlify.

### Personal Portfolio Website

Built with React.js and styled using Tailwind CSS

- Fully responsive design and smooth scrolling navigation

- Deployed on Netlify with GitHub integration for continuous deployment

### Noqtet Tahwl

*React, Tailwind CSS, Framer Motion*

- Developed an educational website promoting clean technology for industrial students.
- Added interactive animations using Framer Motion for enhanced engagement.

### Fitness Gym

*react, tailwind css, framer motion*

- Built a responsive gym website including product listing, filtering, cart, and checkout flow.

### Pray Timing

*react and tailwind css*

- Implemented accurate prayer timing calculations using external APIs & Islamic calendar logic.

### Frontend Mentor Challenges

*Completed multiple HTML/CSS/JS challenges.*

- Built responsive, accessible pages
- Practiced clean coding, validation, and cross-browser compatibility

## LANGUAGES

---

Arabic: Native

English

very Good
