PROFESSIONAL EXPERIENCE

Junior Front-End Developer with a strong foundation in **React.js** with TypeScript, complemented by hands-on experience using Tailwind CSS, Bootstrap, and Material UI. Adept at building responsive and user-friendly interfaces with clean, maintainable code. Fast learner, self-motivated, and enthusiastic about continuous improvement. Solid understanding of state management using Redux and Context API.

EDUCATION

Bachelor's Degree in Computer Science and Information   09/2019 – 08/2023
Zagazig University
Graduation Project:
- Project Name: patients' health records using cloud technique
- This app helps patients keep track of their medical records and share them with different doctors in the same specialty. It also allows users to record their medications and access other useful features.
- Grade: Excellent

COURSES

React.js – Self-learned through official documentation and project-based tutorials

Frontend Mentor Projects – Practicing UI challenges to sharpen real-world design conversion skills

JavaScript Essentials – Covered core JavaScript fundamentals and DOM manipulation

SKILLS

TECHNICAL SKILLS
Front-End Technologies:
- React.js (Hooks, Components, JSX)
- Redux , Context Api
- Tailwind CSS, Bootstrap, Material UI
- HTML5, CSS3, JavaScript (ES6) , TypeScript
- Framer Motion

Tools & Platforms:
- Git & GitHub
- Chrome DevTools
- VS Code

SOFT SKILLS
- Fast learner with a strong drive to master new technologies
- Strong analytical and problem-solving abilities
- Reliable team player with clear communication skills
- Self-motivated with a proactive growth mindset

PROJECTS

E-Commerce Web Application 🔗
React • TypeScript • Redux Toolkit • Redux Persist • JSON Server Auth • Netlify
- Designed and developed a fully interactive e-commerce platform with a modern frontend architecture. Built a seamless shopping experience with persistent cart state, secure user authentication, and dynamic product rendering. Implemented scalable state management using Redux Toolkit while leveraging TypeScript for strongly typed, maintainable code. Simulated a real backend environment using JSON Server Auth and deployed the application on Netlify for public use.

Personal Portfolio Website 🔗
Built with React.js and styled using Tailwind CSS
- Fully responsive design and smooth scrolling navigation
- Deployed on Netlify with GitHub integration for continuous deployment

Noqtet Tahwl 🔗
React, Tailwind CSS, Framer Motion
- Noqtet Tahwl is an awareness and education initiative designed to promote clean technology and sustainability in the industrial sector, The project targets students from technical schools,
- Developed a responsive, interactive web interface using **React** and **Tailwind CSS**, ensuring a seamless user experience across devices
- Implemented smooth animations and engaging transitions using **Framer Motion** to enhance user engagement.

Fitness Gym 🔗
react , tailwind css ,framer motion
- Built responsive fitness gym with react and tailwind css
- Implemented product listing, filters, cart, and checkout features

Pray Timing 🔗
react and tailwind css
Accurately managed and coordinated daily Islamic prayer times using reliable calculation methods and calendars

Frontend Mentor Challenges
Completed multiple HTML/CSS/JS challenges.
- Built responsive, accessible pages
- Practiced clean coding, validation, and cross-browser compatibility
